

# Table of Contents

## Unit 1 Accelerometers

UNIT OBJECTIVE .....	1-1
DISCUSSION .....	1-1

## Unit 2 ADXL345 MEMS Digital Accelerometer

UNIT OBJECTIVE .....	2-1
DISCUSSION .....	2-1

## Unit 3 Hardware

UNIT OBJECTIVE .....	3-1
EQUIPMENT REQUIRED .....	3-1
DISCUSSION .....	3-1

## Unit 4 Graphical User Interface

UNIT OBJECTIVE .....	4-1
DISCUSSION .....	4-1

## Unit 5 System Installation

UNIT OBJECTIVE .....	5-1
EQUIPMENT REQUIRED .....	5-1
DISCUSSION .....	5-1
Connecting KL-67001 3-Axis Accelerometer Unit to PC Using Bluetooth .....	5-3
Receiving KL-67001 3-Axis Accelerometer Unit's Data Using HyperTerminal .....	5-10

## Unit 6 Experiments

UNIT OBJECTIVE .....	6-1
EQUIPMENT REQUIRED .....	6-1
DISCUSSION .....	6-1
Hardware Setup .....	6-4
Experiment 1 Gravity Measurement .....	6-6

Experiment 2	Measuring Gravitational Acceleration .....	6-7
Experiment 3	Gravitational Acceleration Calculation and Offset Calibration.....	6-11
Experiment 4	Tilt Angle .....	6-13
Experiment 5	Pitch Rotation .....	6-15
Experiment 6	Roll Rotation .....	6-18
Experiment 7	Pitch & Roll Demo .....	6-20
Experiment 8	Gravitational Acceleration Waveforms .....	6-22
<b>Appendix A iPhone’s Accelerometer.....</b>		<b>A-1</b>
<b>Appendix B Pedometer – An Example of ADXL345 Applications .....</b>		<b>B-1</b>
<b>Appendix C MEMS Accelerometers Used in Motion Sensing ..</b>		<b>C-1</b>
