

SEE IT. SAVE IT. SHARE IT.

FLUKE®

Preventive maintenance simplified with Fluke Connect® Assets software

LOCK DOWN YOUR DATA & SHARE FROM ANYWHERE

Collaborate and store maintenance data on the Fluke Cloud™ and enable your approved team members to access it whenever and wherever they need to. At the same time, you benefit from best-in-class security.

MINIMIZE TIME IN DANGEROUS ENVIRONMENTS

The Fluke Connect system of tools and software gives technicians the ability to get the readings they need outside of arc blast zones and away from dangerous machinery.

Reinforce the safety procedures you already have by loading safety manuals and policies in Fluke Connect for easy team member accessibility from their mobile devices in the field.

SAVE TIME REPORTING

Generate customizable reports with ease to share your findings. Incorporate multiple measurement types including electrical, mechanical, vibration, temperature and thermal all in one report.

SEE YOUR MEASUREMENT DATA ALL IN ONE PLACE

Whether you're working in industrial or facility maintenance, this system of software and wireless test tools was designed for you and your team.

FLUKE CONNECT® SOFTWARE AT A GLANCE:

Feature	Description	Fluke Connect® Measurements	Fluke Connect® Assets
AutoRecord™ measurements	Standard: Wirelessly save measurements to Fluke Cloud™ and add text or audio annotations	✓	✓
	Plus: Assign measurement to a specific asset		✓
TrendIt™ graphs	Trend measurements from a single session in a time series graph	✓	✓
ShareLive™ video calls	View live tool measurements, video and audio to collaborate in real time	✓	✓
Fluke Cloud™ storage	Securely store up to 5 GB of data per user	✓	✓
Reports	Standard: Create reports with accurate and traceable maintenance data	✓	✓
	Plus: Generate a customizable report with full Asset Analysis data		✓
Asset Analysis	View all types of maintenance data for an individual asset in one place, to more quickly identify and solve problems		✓
Asset Health dashboard	Generates a summary of all assets over time for easy identification of correlated or periodic failures		✓
Asset Status dashboard	Display a summary of all assets with current status based on the most recent maintenance actions to quickly identify where to focus		✓
Asset Hierarchy	Create a hierarchy of assets showing test points, individual assets and groups of assets		✓
Quick start	Import a list of assets in one easy step to quickly start your preventive maintenance program		✓
Asset information	Easily access all relevant information for each asset in one place, including references, manuals, location, and past inspection data		✓
Asset Status and History	Displays a news feed of all changes in an individual asset including status and thresholds		✓
Work orders	Automatically include maintenance data in work orders, view complete work order history and create work orders from the field	Coming soon	

The growing system of Fluke Connect wireless tools includes:

Infrared cameras, vibration meters, digital multimeters, current meters, voltage meters, temperature meters and process tools.
